1. Introduction and Getting Started
2. MetaTrader4 (MT4) Trading Platform
3. Installation of the **3WAY2WIN™** Expert Advisor
4. Activation of **3WAY2WIN™** Expert Advisor
5. Configuration and settings of **3WAY2WIN™** Expert Advisor
6. Risk Management for **3WAY2WIN™** Expert Advisor
7. Terms & conditions for **3WAY2WIN™** and Warning

1. Introduction & Getting Started

Before installing the **3WAY2WIN™** Expert Advisor on your computer-system and starting any trading on a real account, please read this section and the whole manual carefully. To understand risk and warning as well as setup of the robot may be crucial for your profits and performance with the expert advisor at all.

Remember – Trading Forex carries high level of Risk !

- a. We recommend that you get used to the MT4 platform and the robot by using a demo account before starting real trading with real money.
- b. If you calculate your max risk, please be conservative and very careful. Do not overtrade and keep in mind simple rules like “not more than x% per trade”. In case of doubt, go for the smaller size.
- c. Any kind of trading system may operate false for any kind of reason. I.e. it may happen that trades are executed in high frequency due to mistakes in signals, connection or other. If you encounter such situation stop the expert and close trades and contact us quickly.

Please remember the following and keep to this rules

- a. **3WAY2WIN™** Expert Advisor has been developed for ONLY H4 timeframe and only EURUSD pair. It may technically work on other time frames and pairs, but we strongly recommend not trying this with real money accounts.
- b. Our expert advisor **3WAY2WIN™** is tested with a variety of different brokers incl. FxPro, Alpari, FinFx and others. We highly recommend using a 5 digit ECN broker like FinFx.
- c. As the robot does not use any dangerous techniques like hedging it is compatible with No Hedge and also FIFO brokers.
- d. We recommend letting the robot run all the time Mo to Fr and not interfere with its trades. You may however switch the robot off any time you want. In case of open trades, make sure, that these have a s/l and t/p assigned.
- e. Do not trade without stop loss (s/l). Although even stop loss does not protect you from losing money. Opening gaps and other problems may cause losses greater than you expect.
- f. Make sure you have a stable and fast internet connection.

2. The MetaTrader4 (MT4) Trading Platform

3WAY2WIN™ Expert Advisor need the MetaTrader4 trading platform as a operating platform. You must download and install this software from your brokerage firm like www.FinFx.fi or other. MT4, also called MetaTrader4 is a 100% free trading platform available through forex brokers and also directly from MetaTrader Company. Following we show an example how to setup your account when using FinFx Broker. Although most brokers have very similar account setup procedures, we recommend that you follow the exact specifications of your individual brokerage firm.

- a. How to install MetaTrader
if you already have your account opened and have your MetaTrader copy installed, than you can go directly to page 7 of this manual
- b. Once you have opened your (new) account successfully, you will receive an e-mail from your brokerage firm with the following data:

“Dear xyz,

You have now a new MetaTrader account with the following login data. Login is also your FinFx customer number.

Login: your account ID

Password*: your main password

Account type: what kind of account you have opened

Server: the name of the server to be used “

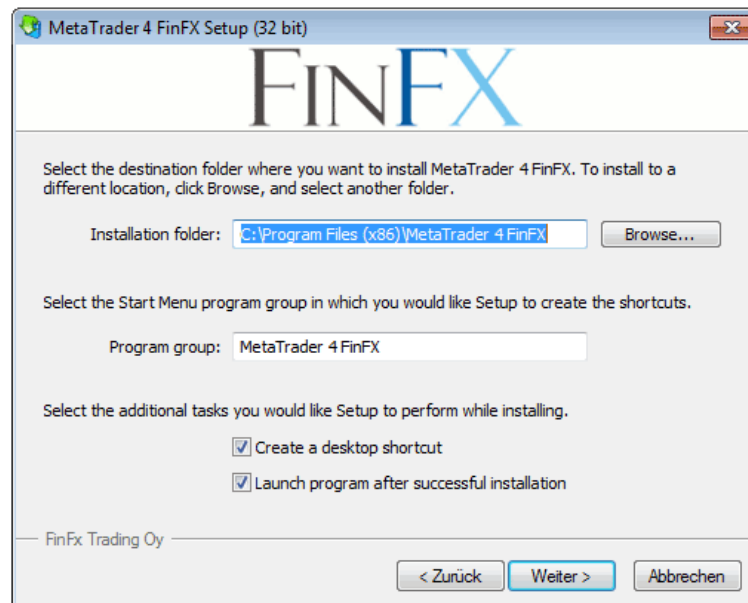

You will also receive information regarding the funding of your new account.

Download and install the MT4 (MetaTrader) trading terminal which is the base for **3WAY2WIN™** Expert Advisor

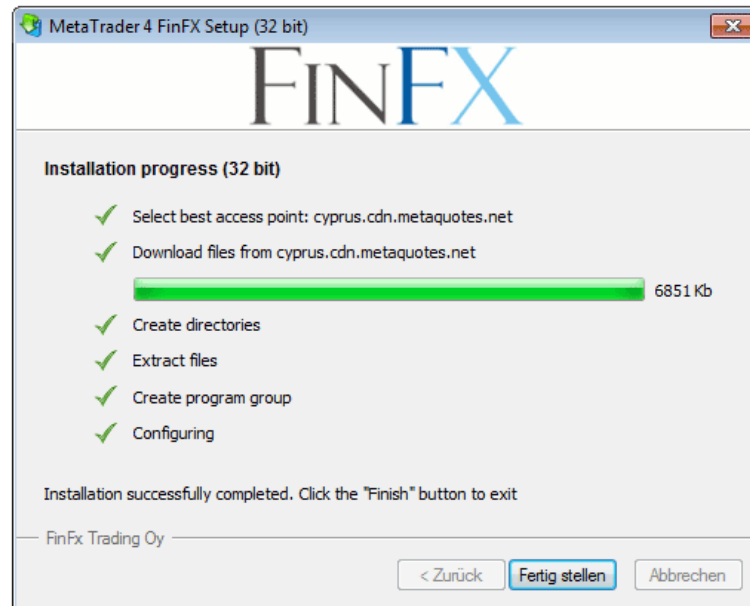

- i. Type into you browser:
<http://www.finfx.fi/download-mt4setup.php>
- ii. Once you have started the installation process the following screens will show up:

- iii. Select “Contiunue” / “Weiter” (depending on your language set up)
- iv. Next window you get is:

- v. Here you select the program folder where you like to store your MT4 MetaTrader Program. You must remember this one well, as in this folder you will also later store the **3WAY2WIN™** expert advisor.
- vi. Next you get this window when the installation is finished:

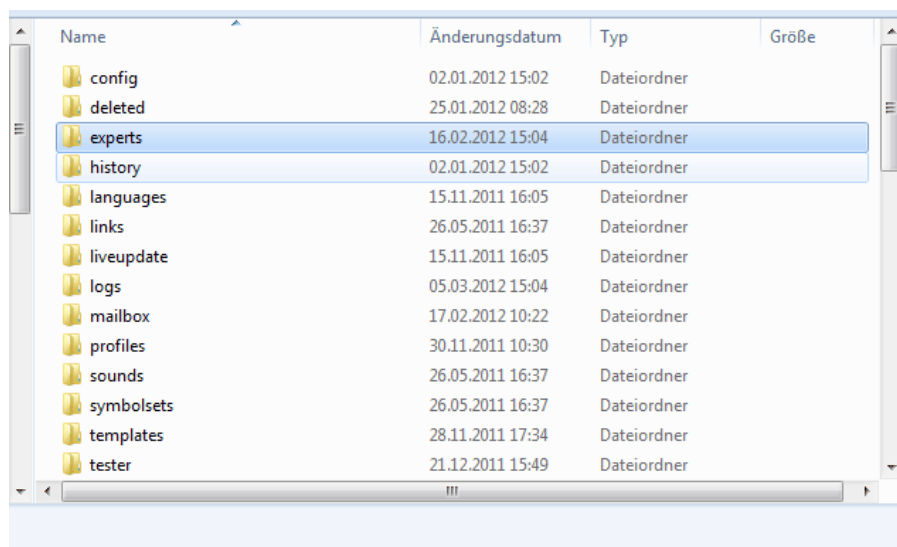

- vii. You then click “Finish” (Fertig stellen in the image above)
- viii. When you have finished the installation of the MetaTrader Software, you can start the software and input your account data.
- ix. Make sure to use exactly the data provided by your broker (see 2/b of this manual). In case of questions, please contact your brokerage firm. Their customer service departments are specialists in account setup support and will surely get you up and running. **3WAY2WIN™** support team can’t help you free of charge to set up your brokerage account.

3. Installation of the **3WAY2WIN™** Expert Advisor

Once you have made your payment and we have received your account number, you will receive your **3WAY2WIN™** license in an e-mail from us. The mail might be compressed or just be the native ex4 file and comes together with the manual. Such file contains the executable version of the expert advisor and installing is easy.

- a. You receive an e-mail with the **3WAY2WIN™** software file enclosed. Please make sure to check your SPAM and other folders to find the file. Some software puts all incoming mail with any enclosure into SPAM folders.)
- b. When you have opened your mail, you save the enclosed .ex4 file in a directory of your choice. We recommend that you also make a back copy on a CD or other storage device.
- c. After you have stored the file on your hard disk, you make a copy (right click on the file and select "Copy" from the menu.
- d. You now open the folder you have installed your Metatrader in (see section 2/ iv and v). Inside this folder you see another folder called "experts"

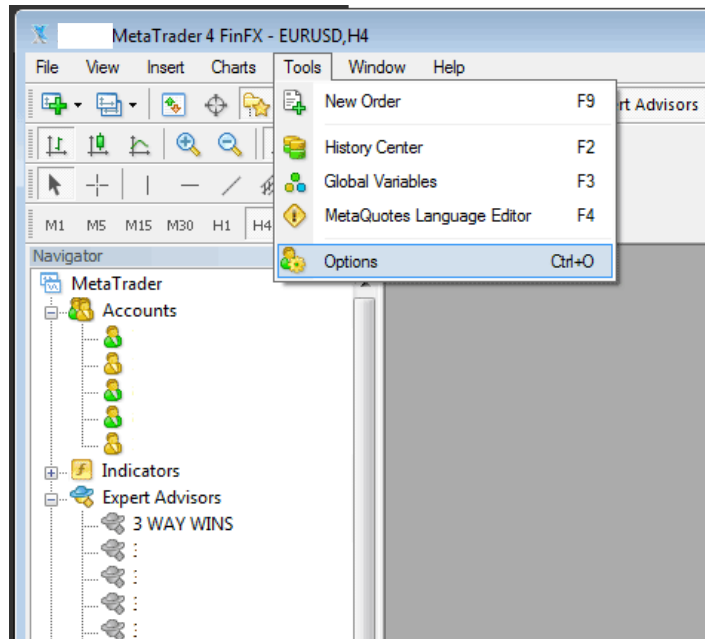

- e. Go into the experts folder
 - f. Paste your copied file here (str + v)
- Now the **3WAY2WIN™** software is copied into the right folder and we can start the MT4 software and begin working with **3WAY2WIN™**

4. Activation of **3WAY2WIN™** Expert Advisor

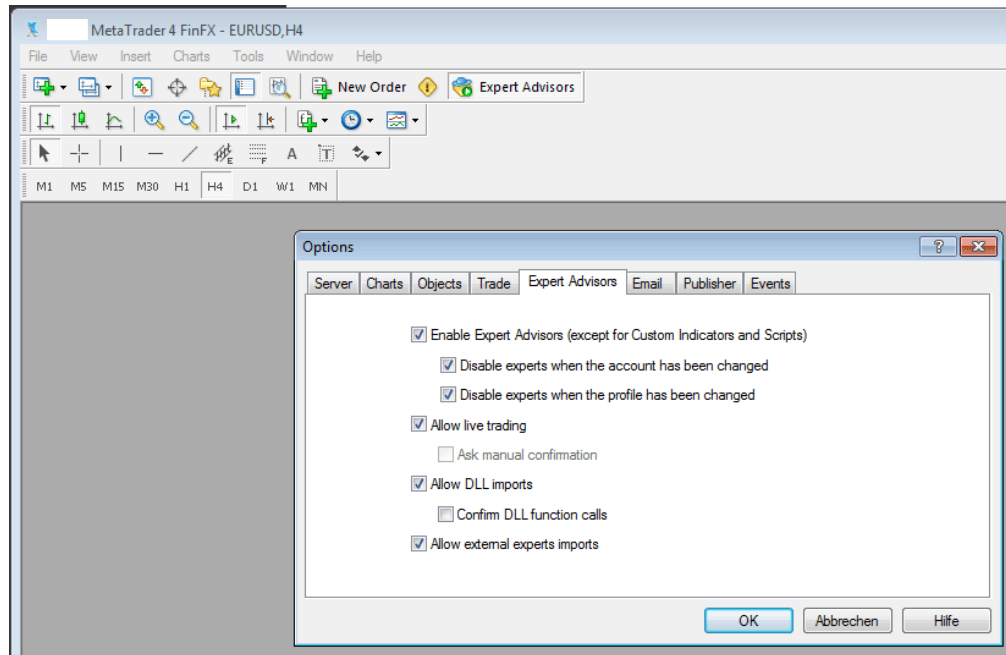

You must check that your account number and the number you provided us with are 100% identical. **3WAY2WIN™** will **NOT** run on any other account and we want to keep copies controlled and only honest buyers shall have the right to use the product.

Once you have installed your MT4 Platform correctly and also copied **3WAY2WIN™** into the correct folder of your Metatrader, you best start some trading manually to get use to the platform. There are also plenty of free websites to learn forex basics and we recommend your get just to the platform first, before your any automatic trading. Once you know the platform and how to configure it, you can start **3WAY2WIN™**

- a. Open your MetaTrader platform
- b. Now you click **Tools / Options**

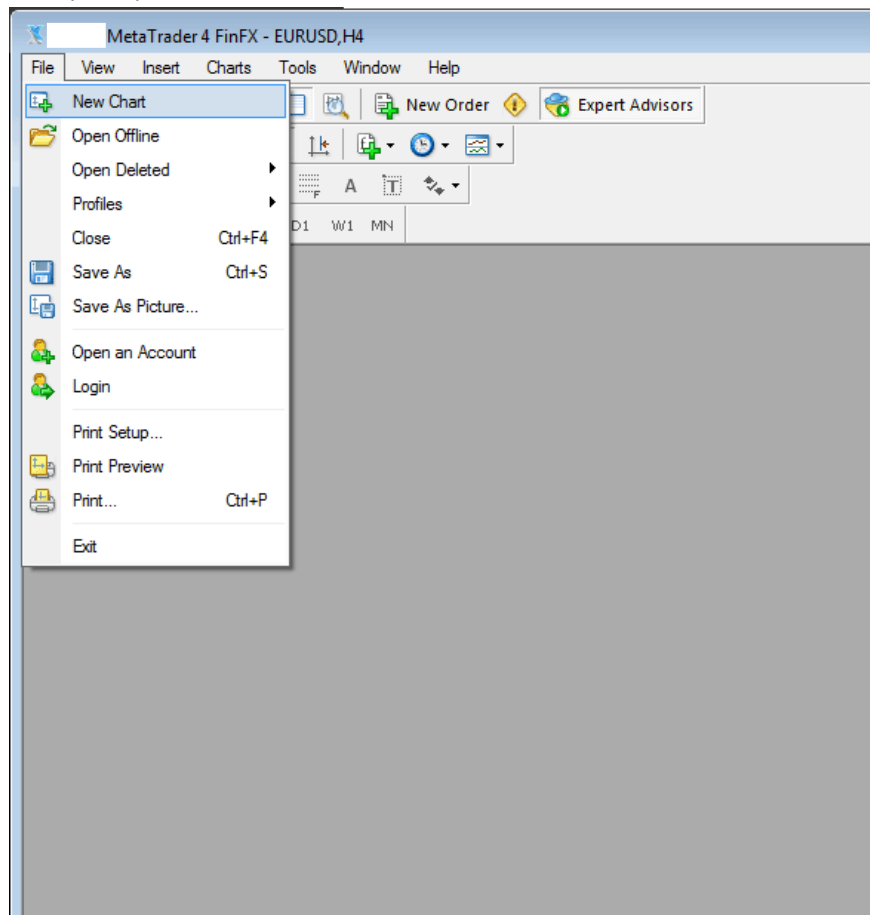

- c. The following screen comes up. Make sure you have all settings set up as shown here on the image:

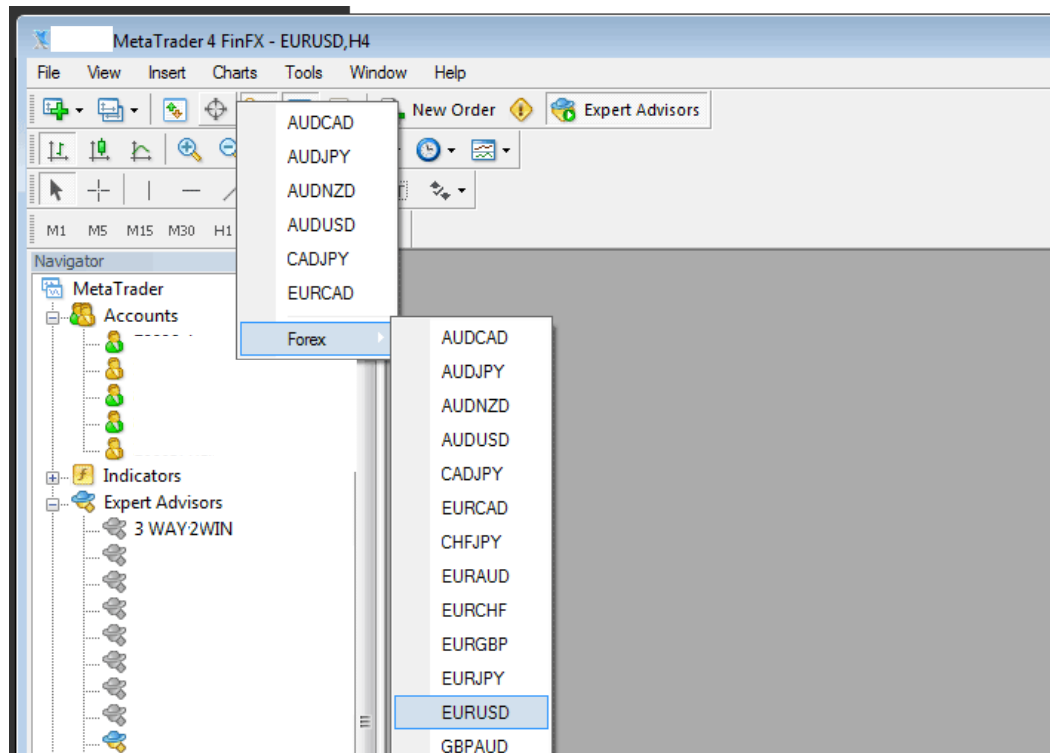

- d. These settings make sure, that **3WAY2WIN™** can trade and handle trades automatically.

- e. Next you open a new chart:

- f. Open EURUSD chart. The chart will show up in your MT4 Window

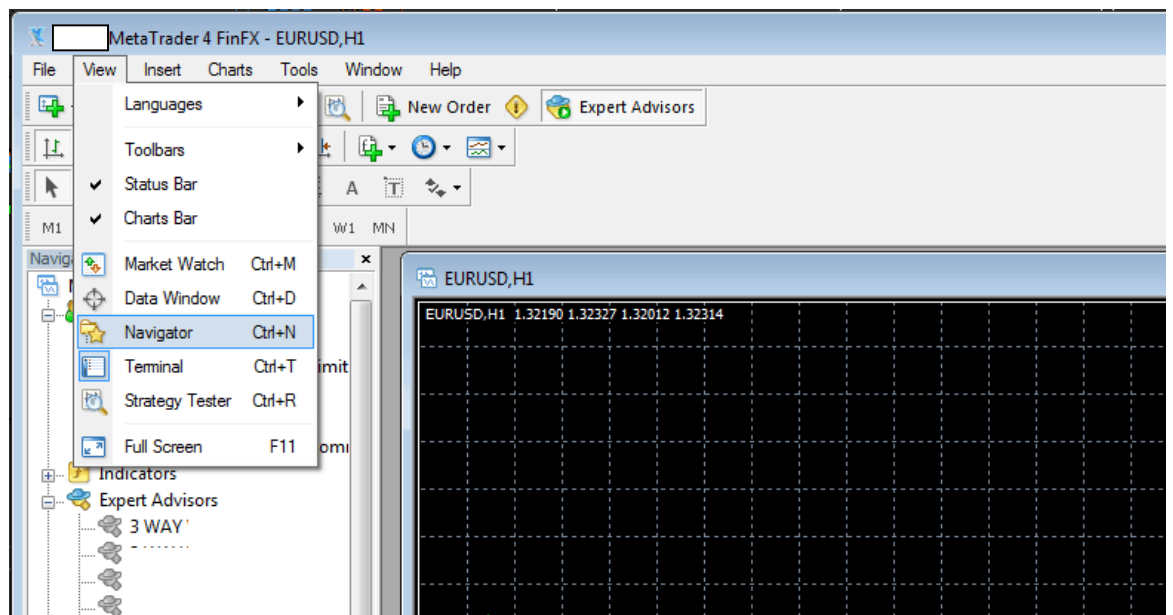

- g. Once you have selected the EURUSD pair a new chart will be opened. Depending on your settings this will look like this or similar

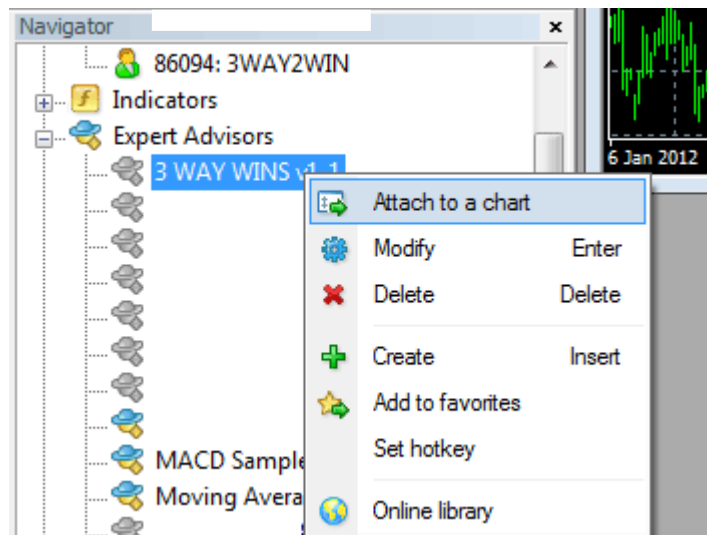

- h. Next you must select the time frame for the chart (and by doing so also for **3WAY2WIN™**)

- i. Once you have selected the chart and the time frame you can assign the Expert to the chart. Please note that the expert is only running if it is assigned to a chart and the MT4 is running live. Although stop loss and take profit of trades may be active, while the software is down or off, the Expert itself needs to run on a live chart.
- j. To assign the robot to the chart please open the “navigator”

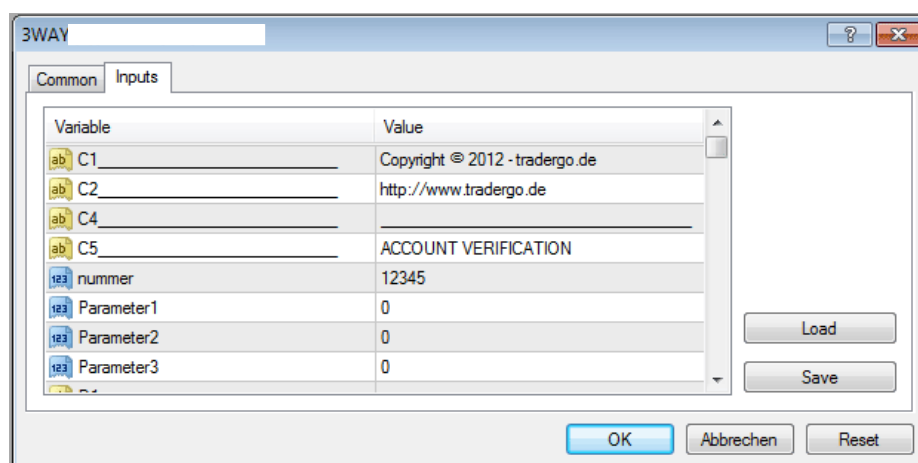

- k. When you open the navigator you click on Expert Advisor and see a list of the EAs installed in your expert's folder of your MetaTrader software. To expand the list, double click on Expert Advisors in the Navigator window.
- l. Next you select the **3WAY2WIN™** Expert Advisor and either drag it into the chart or you use the right mouse bottom and select "Attach to Chart"

5. Configuration of **3WAY2WIN™** Expert Advisor

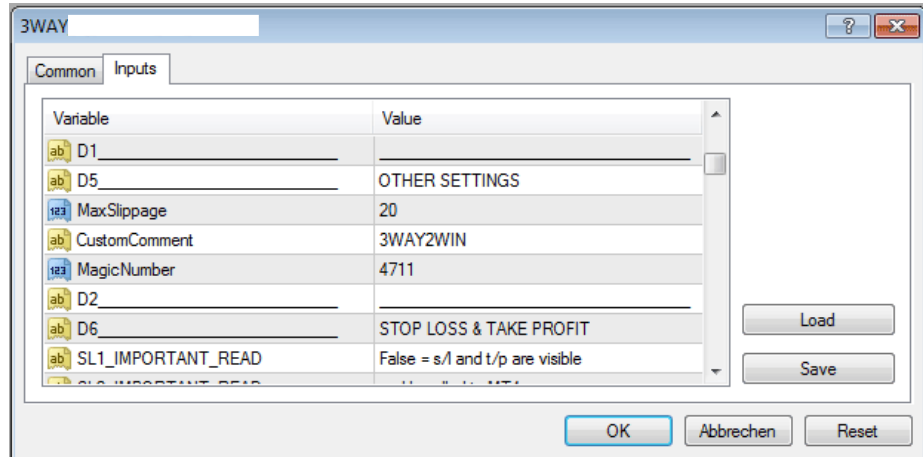

Once you have attached the Expert to the correct chart (5) you can configure the expert.

- a. After attaching the expert or dragging it into the chart, you get the following window:

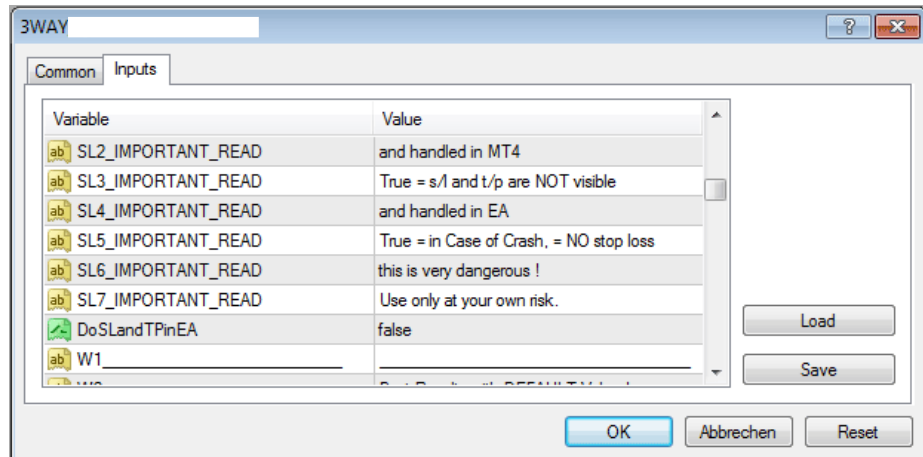

- b. The best settings for the Expert we found are in the default. You must be careful when you make changes to the default settings
 - i. nummer and also Parameter1, Parameter2, Parameter3 do not change and do not do any input

- ii. D1 and D2 you also must leave unchanged

| Variable | Value |
|--------------------|---------------------------------|
| D1 | |
| D5 | OTHER SETTINGS |
| MaxSlippage | 20 |
| CustomComment | 3WAY2WIN |
| MagicNumber | 4711 |
| D2 | |
| D6 | STOP LOSS & TAKE PROFIT |
| SL1_IMPORTANT_READ | False = s/l and t/p are visible |

- iii. Max Slippage defines what level of slippage you allow. You can set this up to your desired level depending on what slippage you allow the EA when placing an order (the difference from price at or to real execution), we suggest to leave at 20 (5 digit broker)
- iv. Custom Comment – you can leave this as is or change to comment of your choice. **3WAY2WIN™** will use this one to document the trades.
- v. Magic Number – any number, we recommend not to change

| Variable | Value |
|--------------------|---|
| SL2_IMPORTANT_READ | and handled in MT4 |
| SL3_IMPORTANT_READ | True = s/l and t/p are NOT visible |
| SL4_IMPORTANT_READ | and handled in EA |
| SL5_IMPORTANT_READ | True = in Case of Crash, = NO stop loss |
| SL6_IMPORTANT_READ | this is very dangerous ! |
| SL7_IMPORTANT_READ | Use only at your own risk. |
| DoSLandTPinEA | false |
| W1 | |

- vi. DoSLandTPinEA

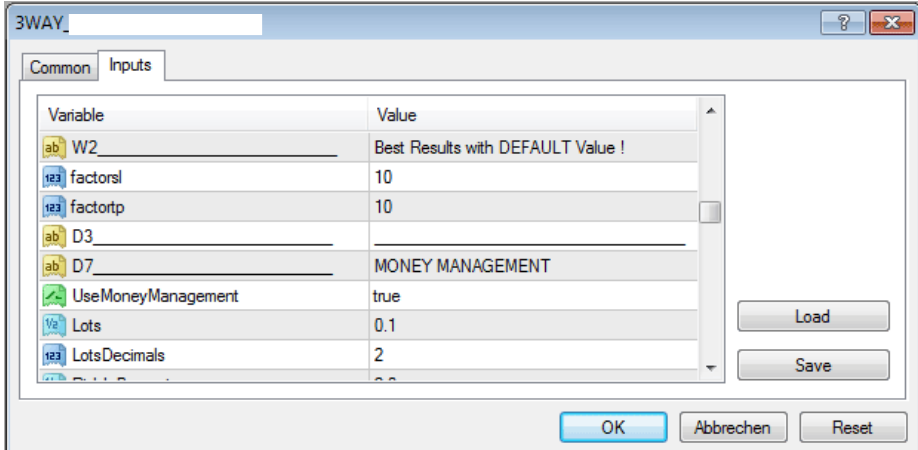

This one is important to understand. We highly recommend not to change and leave on false. This means, the t/p and s/l levels are placed in the order and are visible (to you and to your broker). However, some people for some reasons are afraid to have their s/l levels visible to their broker. In this case they can select this option to “true”. This is very dangerous, as in this case, the s/l and t/p levels are hidden means they are not placed into the order,

they are just in the EA. Now, in case the platform crashes, or you lose connection, than you NO MORE STOP LOSS at all. And this can be extremely dangerous. So better leave always on false.

Some other Expert Advisors call this function “Stealth Mode” or “Broker protection” mode. Be careful – it is less risky to let your broker see your stop loss than to have none at all !

- vii. Factorsl and factortp – we recommend not changing. If you are very experienced and you want to optimize the robots settings, you can use these two variables for changing the stop loss and the take profit level. Handle with extreme care, please. We have tried various settings and the included are best. Attention: You may have to work with these variables if you are using a 4 digit broker and your trades come with too wide s/l and t/p levels. In the base setting these are optimized for standard, 5-digits brokers and shall not be changed.

- viii. Use money management

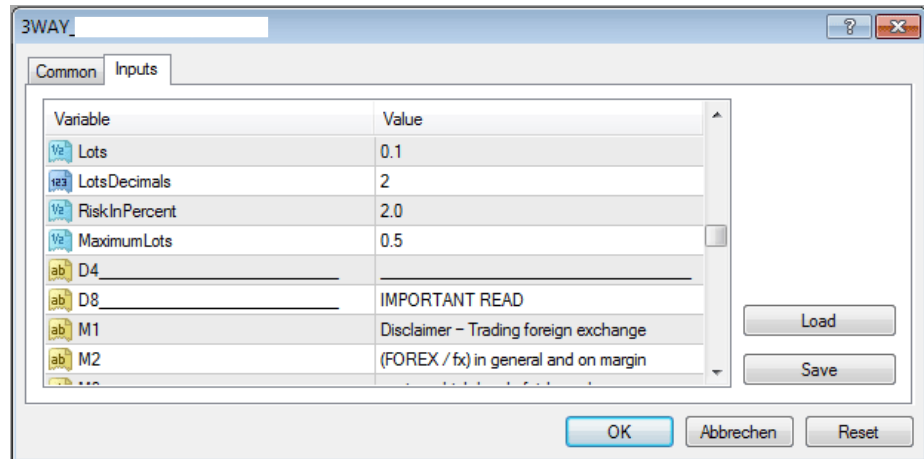

| Variable | Value |
|--------------------|-----------------------------------|
| W2 | Best Results with DEFAULT Value ! |
| factorsl | 10 |
| factortp | 10 |
| D3 | |
| D7 | MONEY MANAGEMENT |
| UseMoneyManagement | true |
| Lots | 0.1 |
| LotsDecimals | 2 |

Buttons: Load, Save, OK, Abbrechen, Reset

We strongly recommend to leave this one on true, but you are free to change also to fixed lots. If you choose to use money management = true, then the EA will calculate the right lot size for each trade depending on the available FREE margin on your account.

ix. Money Management (cont.)

- x. Lots = the lots you want for each trade (only active if use money management is set to “false”)
 - xi. LotsDecimals = the digits after the separator you can use (0,1 or 0,01 lots), please check with your broker for details.
 - xii. Risk in Percent = this defines the risk per trade in % of your free account margin. I.e. if your free account margin is 10,000 US-\$, then the risk of 5% would mean 500 US-\$ will be lost in case that the Expert may run into its stop loss level (please accept rounding). Make sure, you understand your risk and you level of exposure when you set this up
 - xiii. All following settings are default and need no changes. Please read the warnings and the terms & conditions.
- c. You may have to switch Expert to real trading by clicking the EA symbol in the top of the screen

d. Once your Expert is live and running, you will get a chart looking similar to this one:

On Display you can see

- the broker's digits (4 or 5)
- the broker's server name
- the account name and number
- the available funds on the account
- information about open orders if there are any
- Updates of the neural network info lines
- Spread (5 digits base)

6. Risk Management for **3WAY2WIN™** Expert Advisor

Trading foreign exchange on margin carries high level of risk, and may not be suitable for all investors. The high degree of leverage can work against you as well as for you. Before deciding to invest in foreign exchange you should carefully consider your investment objectives, level of experience, and risk appetite. The possibility exists that you could sustain a loss of some or all of your initial investment and therefore you should not invest money that you cannot afford to lose. You should be aware of all the risks associated with forex trading, and seek advice from an independent financial advisor. Please read the Warning page and term & conditions.

- a. When using **3WAY2WIN™** Expert Advisor you must always remember, that all tests do not give the same environment as it is in real-live / real-money trading. We made all kind of extensive tests with the robot, we also simulated crashes and weekend, high news times etc. – but whatever you simulate, it is still a simulation. So be careful and it is always a good idea to watch the EA in first weeks of its performance.
- b. **3WAY2WIN™** is less sensitive to high impact news than most other trading systems. However, it might be good to switch off the robot (if there are no open trades) before the release of high impact news. This is up to your personal preference. We keep the EX running all time from Mo to Fr without any exception.
- c. It is very important that you always manager your account fund well. This can mean, after a time of profits, take some off the account. It is always a good strategy to keep free available funds limited on your trading account.

7. Terms & conditions of use

- a. You must be at least 18 years old to be able order any of our products. To use **3WAY2WIN™** or other systems we sell, you must be able to fulfill the technical requirements at your own cost. Technical requirement can change due to technical changes and development of the software.
- b. You fully understand that trading Foreign Exchange (forex / fx / currencies) carries a very high level of risk, and you can lose some or all of your investment. The high degree of leverage often associated with forex trading, can work against you as well as for you. The use of leverage can lead to large losses as well as large gains. You must be aware of the risks and be willing to accept them in order to invest in the futures and options and other forex markets and general investments markets. Never trade with money you can't afford to lose.
- c. Neither we nor any third parties provide any warranty or guarantee as to the accuracy, timeliness, performance, completeness or suitability of the information and materials found or offered on this website for any particular purpose. You acknowledge that such information and materials may contain inaccuracies or errors and we expressly exclude liability for any such inaccuracies or errors to the fullest extent permitted by law.
- d. Your use of any information or materials on this manual is entirely at your own risk, for which we shall not be liable. It shall be your own responsibility to ensure that any products, services or information described in this manual meet your specific requirements.
- e. This manual contains material which is owned by us. This material includes, but is not limited to, the design, layout, look, appearance and graphics. Reproduction is prohibited.
- f. We reserve the right to update and change these terms & conditions from time to time without prior notice. Continued use of our products after any such changes shall constitute your consent to such changes.
- g. Unauthorized use the software will rise to a claim for damages and legal action and such use is a criminal offense.
- h. You understand and agree that we will not be liable or responsible for any loss or damage due to any reason. By using any of our products - including but not limited to **3WAY2WIN™** expert advisor, you acknowledge that you are familiar with these risks and that you are fully and solely responsible for the results of your decisions. We accept no liability whatsoever for any direct or consequential loss arising from the use of this product. You understand and agree that past results are not necessarily indicative of future performance. You understand and agree that back test results are not indicative of any future performance.
- i. At no time we take any form of responsibility for the performance of external influencing factors like, the availability of the Internet servers, power failures or performance and behavior of any brokers, and other factors which we can't influence.

- j. This agreement concerns a trading system which we offer in form of a software (**3WAY2WIN™** Expert Advisor), or other kind of software and information we provide and sell. We take over expressly no responsibility for our products. Should the customer trade a value or a product through our trading system at any market including but not limited to Foreign Exchange / Forex / Currencies market, it will be done by the customer's own decision and under the customer's own responsibility. We, the companies, do not take any responsibility for possible losses at the foreign exchange markets or other markets and investments. With the purchase of any of our products, including but not limited to the **3WAY2WIN™** expert advisor trading system, the customer agrees that he was informed by us expressly about the risks.
- k. Please do not start the software and make use of your return right in case you do not agree to these terms & conditions.
- l. All our products incl. licenses for expert advisor software **3WAY2WIN™** has to be paid by the customer in advance. Sales are only possible through our sales and marketing providers and several methods of payment are offered by these to our customers. Also methods that include a discount may be available in combination with customers opening an account at specified brokerage firms including but not limited to FinFX. For delivery of the goods, the prices described in our web page apply and local tax will be added depending on the country of the customer's residence.
- m. Our products are bound to a specific trading account (MT4 account number) and only for such. Running our products on not specified account may result in failure and is illegal ! The customer has to provide his account number during the purchase process to us and we will deliver via e-mail a license of the software to him for the specified account only.
- n. The software **3WAY2WIN™**, the logo and other graphics are protected by international copyright and trademark laws. The owner of the copyrights and trademarks are the companies and its owners. You may not use, copy, modify, reproduce, publish, upload, post, transmit, or distribute, in any manner, any of the material including all type text (all languages), all graphics, all code and / or all software. For partners we provide separate collateral materials for advertising and promotions.
- o. With your purchase of any of our products you understand and agree that our 30 days no questions money back guarantee is valid within 30 days after your purchase.
- p. Every effort is made to keep the website up and running smoothly. However, our company incl. Huck's B.V., Phoenix Invest - Reiner Eckhardt and 3WAY2WIN team, takes no responsibility for, and will not be liable for, the website being temporarily unavailable due to technical issues beyond our control.
- q. With the delivery of the purchase we grant the customer a non-exclusive, simple right to use the software for ONE specified account on ONE Computer.
- r. Forwarding and sharing **3WAY2WIN™** signals is not allowed. The customer may make back-up copies of the software, but not distribute such.

- s. De-Compiling or any other form of reverse engineering of the software is not allowed.
- t. You may not sell, license or distribute copies of the software by itself or as part of any collection, product or service.
- u. There are technological measures inside the software that prevent from illegal use. These technologies may include but are not limited to Internet based verification and / or MT4 built in verification of legal status. The functionality for such verification is hidden and may verify the validity of your license at any time.
- v. Rights and Ownership
 - i. We reserve all rights not expressly granted to you in this terms & conditions. Our Software is protected by copyright and other intellectual property laws. **3WAY2WIN™** Team, Phoenix Invest - Reiner Eckhardt and Huck's B.V. own the title, copyright, and other intellectual property rights in the Software.
 - ii. in any case - 3WAY2WIN™ expert advisor software is licensed, not sold.
 - iii. You may not reverse engineer, decompile, or disassemble the Software, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.
 - iv. You may not rent, lease, lend the software nor rent, lease or sell signals generated by the software.

8. Warning

Please read the following carefully and make sure you fully understand.

- a. Trading foreign exchange on margin as in the case with MT4 / MetaTrader comes at an even higher level of risk than other forms of trading, and may not be suitable for all investors. Using a so called leverage (using less money than you work with) can work against you as well as for you but you have to be aware of the associated risks
- b. Before deciding to trade foreign exchange you should carefully consider your investment objectives, level of experience, and risk appetite. It is highly important, that you understand the risks and you have to accept the possibility that you could suffer a loss of some or all of your initial investment and therefore you should not invest money that you cannot afford to lose. If you trade on margin, your losses may exceed your capital and you have to make yourself aware of all the risks associated with forex trading. You should be aware of all the risks associated with foreign exchange trading, and seek advice from an independent financial advisor or your bank if you have any doubts. We strongly advise you shall seek advice from professional financial advisors before using any of our products or any other forex related trading products / software.
- c. Never forget – 95% of all participants in retail forex will lose money !
- d. Liability
Huck's B.V., 3WAY2WIN™, Tradergo.de and other associated companies opinions and views opinions, signals, analyses, prices, or other information contained on their websites and by any of the products offered incl. expert advisors is provided as general market commentary, and does not constitute investment advice. We will not accept any liability for any loss or damage, including without limitation to, any loss of profit, which may arise directly or indirectly from use of or reliance on such information.
- e. General & Internet related trading risks
There are risks associated with using Internet based trading systems incl. the Internet based Metatrader environment. The risks include but are not limited, to, the failure of hardware, software, and your Internet connection or a failure of your broker's systems. It also can happen to you and any trader, that your broker is closing positions and spreads slippages change. Your broker will usually exclude any liability for lost signals or any other technical failure in its connection or execution of your (manual and automatic) orders.
- f. Accuracy of Information
The content on this manual, or software and our websites is subject to change at any time without prior notice, and is provided for information only.
- g. Broker's behavior
We can not and do not guarantee that your broker will deal in a fair and correct way with you when you are using an expert advisor program like ours. Although there are brokerage firms that work against the performance of expert advisor programs like **3WAY2WIN™** we also know about such companies who do not work against you. We advise you to verify with your brokerage firm of choice first, if they allow expert advisors to function on your account.

h. Non liability

Your purchase of any products from us (directly or through our partners) implies your acceptance of understanding and an agreement of this warning and our disclaimer and it will exempt Huck's BV, **3WAY2WIN™**, Phoenix-Invest and tradergo.de as well as its associates and its owners and partners from any liability and litigation.

i. Theoretical results

It should also be understood that hypothetical performance results may be posted on the website or given to third parties by other methods. Such hypothetical performance results have inherent limitations in that they have been prepared with the use of past performance and past performance is no guarantee of future results. Performance can and does vary between individuals.

j. Back-Testing and other hypothetical performance results have system inherent limitations and it is very likely that real trading will vary from account to account. It is important for you to understand, that no representation is made that any (real or demo) account will or is likely to achieve the very same results as those shown on this website. We run our expert advisors ourselves on live accounts (real money and demo). We can prove this. However it must be understood, that our trading might not involve financial risk and no account can show, what will happen in another account with real trading conditions. We regularly face situations ourselves, when the very same expert advisor program (incl. our own and also third party programs) work differently on different trading accounts. This also includes variances between demo and live accounts as well as different brokerage firms and also between different accounts of the same firm.

k. We recommend to use a demo account or at least lowest possible trading lot size first, before commencing with any Live forex account and trading with our products. The use of our products incl. but not limited to **3WAY2WIN™** expert advisor requires you to have substantial excess risk capital at hand that you do not need for your living. Forex markets also come with a very high level of volatility which is influencing the prices of instruments you may trade. Also news can heavily influence the price and the movement of price of positions you may hold (either through manual trading or through the use of expert advisor programs such as **3WAY2WIN™**).

l. It is your responsibility to make sure that you become fully aware of the risks and the conditions before starting any trading with our products and or before using them.

m. Risk

You will always trade at your own risk. All information and material purchased from our or any related partner's website ("affiliates") is for educational purposes only and does not provide any kind of financial advice. Any statements about profits or income, expressed or implied, do not represent a guarantee. Your actual trading may result in losses as no trading system is guaranteed. You accept full responsibilities for your actions, trades, profits or losses, and agree to hold Huck's B.V., **3WAY2WIN™**, Phoenix-Invest and tradergo.de as well as its associates and its owners and partners as well as any of its authorized distributors of this information harmless in any and all ways.

- n. We do not take any responsibility for errors, inaccuracies for these materials. We do not warrant the accuracy or completeness of the information, text, graphics, links or other items contained within this manual and other materials. **3WAY2WIN™**, Phoenix-Invest, Huck's B.V. and tradergo.de as well as its associates and its owners and partners or any related legal entities shall not be liable for any special, indirect, incidental, or consequential damages, including without limitation losses, lost revenues, or lost profits that may result from these materials.
- o. By any of our products you acknowledge and accept that all trading decisions are your own full responsibility, and the author, and anybody associated with Huck's B.V., **3WAY2WIN™**, Phoenix-Invest and tradergo.de as well as its associates and its owners and partners cannot be held responsible for any losses that are incurred as a result. By using any of our products (expert advisors, trading signals or other) you agree to hold Huck's B.V. **3WAY2WIN™**, Phoenix-Invest and tradergo.de as well as its associates and its owners, staff as well as partner free of any responsibility or liability for any losses sustained when you use our products. You will always trade at your own risk.
- p. We are fully entitled to change, modify or update the information in this manual, without any prior notification being necessary. No owner, director or employee of Huck's B.V., **3WAY2WIN™**, Phoenix-Invest and tradergo.de can be held directly or indirectly legally or otherwise responsible for the information and/or recommendations contained in this manual.
- q. U.S. Government Required Disclaimer
Commodity Futures Trading Commission Futures and Options trading has large potential rewards, but also large potential risk. You must be aware of the risks and be willing to accept them in order to invest in the futures and options markets. Don't trade with money you can't afford to lose. This is neither a solicitation nor an offer to Buy/Sell currencies, futures or options. No representation is being made that any account will or is likely to achieve profits or losses similar to those discussed on this company's web site. The past performance of any trading system or methodology is not necessarily indicative of future results. Trading foreign exchange on margin carries a high level of risk and is not suitable for all investors. The high degree of leverage can work against you. As with all investments, you should not invest money that you cannot afford to lose. Before deciding to invest in foreign exchange, you must carefully consider your investment objectives, level of experience, and risk appetite. Additionally, you must be aware of all the risks associated with foreign exchange trading and seek advice from an independent financial advisor. Past results are not necessarily indicative of future success.
- r. CFTC RULE 4.41
HYPOTHETICAL OR SIMULATED PERFORMANCE RESULTS HAVE CERTAIN LIMITATIONS. UNLIKE AN ACTUAL PERFORMANCE RECORD, SIMULATED RESULTS DO NOT REPRESENT ACTUAL TRADING. ALSO, SINCE THE TRADES HAVE NOT BEEN EXECUTED, THE RESULTS MAY HAVE UNDER-OR-OVER COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY.

SIMULATED TRADING PROGRAMS IN GENERAL ARE ALSO SUBJECT TO THE FACT THAT THEY ARE DESIGNED WITH THE BENEFIT OF HINDSIGHT. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFIT OR LOSSES SIMILAR TO THOSE SHOWN.

Your purchase of the 3WAY2WINJ trading system (expert advisor) represents your acknowledgement and representation that you have read and understand

- The terms & conditions (within this document and/or on our website)
- The Warning (within this document and/or on our website)

and that you agree to be bound by that terms & conditions and that you understand the warning.
